

# Matt's BYD Atto 1

Q

What was it that got you excited about the car you chose?

A

***A demo model became available at a dealership in Sydney when the war started. It took me 30 seconds to decide to take it.***

Q

Is there one negative you would like to mention?

A

***Finding chargers even when you know they are there eg in a shopping centre***

Q

What's the best thing about being an EV driver ?

A

***EVERYTHING! Cost, convenience, features, a more enjoyable driving experience, freedom, not feeling exploited by the petrochemical companies - I just wish everyone could share the experience and joy. I can even turn the heater on remotely so on cold winter days so I don't have to get into a cold car lol.***

Q

When did you first seriously think about buying an electric car?

A

***I have wanted and seriously thought about buying an EV for many years but I already had a great vehicle which was very fuel efficient so I couldn't justify the expense. That has changed over the last 12 months but I couldn't find the time to look for the right vehicle. With the price dropping under 30k in February I realised I had to make the time and the war in the Middle East made it urgent.***

Q

What would be your advice to someone thinking about an EV right now?

A

***I'm an accountant so the cost-benefit of an EV is clear to me. EVs are not subject to Fringe Benefits Tax.***
