		Heatwave and Bushfire	Project Managers	Tilba Halls Upgrade - Tony Lowe, Pete Phillips, Stuart Absalom and Stephanie Chiu PM (project manager) .

<p>Develop Microgrid Feasibility Studies</p>	<p>Microgrids</p>	<p>Phil Shorten</p>	<p>Behind the meter battery options need to be explored added to the options for consideration in SuRf outcomes as well as being discussed with communities – eg via Indigo When considering community batteries need to be explicit about the capacity to operate or NOT operate in Island mode– otherwise community understanding and support may be compromised. Kathryn to arrange meeting with Indigo to “test” the SuRF BCs attractiveness to retailers and their ability to develop a revenue/cost savings model consistent with community values and financial expectations. - in December, Kathryn Warwick, Rob, Phil Rob to contact Heather Louise Smith to identify other design options beyond MGs by end of November Phil to join Indigo after the 13th so that he can obtain insights to community/regional solar supply and demand data When considering Heat havens /emergency facilities consider Broulee SuRf club which is now a heat haven. Phil to investigate types of emergency facilities. SHASA needs a Comms / Edu program on community energy options – Phil to discuss purpose, process, content and targets with Lyn Phil to ask Warwick to include content on export controls and subsequent revenues as an incentive for optimising solar capacity in the local community eg arbitrage and wholesale trading. Nb This already include in the BC but could do with more detail Phil to put a simple action plan together to progress next steps within communities after Surf Matt(EE) to continue cherry picking content but if not successful make final request to ANU for content and then send email trail to Kathryn to</p>
