

Growing a more resilient community and low carbon economy

Our Focus is on:	Key Actions
<p>Collaboration & Community Engagement</p>	<ul style="list-style-type: none"> • We actively collaborate with other community groups and volunteers to enhance service capability and resourcing. • We run the Repair Cafe to engage with the community, build skills, resilience, and reduce waste to landfill. • We actively partner with businesses aligned with our vision for a resilient community & low carbon economy. • We seek to broaden our membership, volunteer work, and project focus to recognise our diverse community. • We rely on the commitment, goodwill, and capability of our volunteers, and them grow through mentoring, coaching, positive experiences, social events, and training. • We keep the community informed through our regular newsletters, website and Facebook.
<p>Creating a more resilient and healthy community</p>	<ul style="list-style-type: none"> • We engage in projects that deliver renewable energy, solar install programs, batteries on community facilities, and support local research and development of renewable power generation, batteries, and energy efficient appliances. • We promote the transition to electric vehicles and EV charger networks, electric public transport, cycling, and walking. • We support and help develop heatwave and bushfire smoke havens. • We promote regional food security and partner with other organisations to facilitate food delivery to those in need.
<p>Advocacy & Information</p>	<ul style="list-style-type: none"> • We inform and advocate to all levels of government on the climate crisis, renewables, electric transport, and social justice.
