

NEEDED: HAVEN HELPERS

HEAT AND SMOKE HAVENS

Would you like to help when Heat and Smoke Havens are open?

A number of community owned facilities have been upgraded to operate as Heat and Smoke havens during extreme weather events. They provide an opportunity for people to escape the adverse health effects of heat and or smoke.

There are currently:

- 5 Havens in Moruya
- 2 Havens in Batemans Bay and
- 2 Havens in Narooma.

JOB SPEC

As a Haven Helper you would work with other volunteers to make the Haven a welcome space for members of the community

This could include setting up the facility as an operational haven, putting out the Haven Flags, putting out tables and chairs, putting on the kettle, and putting out some snacks, taking contact details of attendees, and being supportive emotionally to members of the community.

SHASA
Southcoast Health and Sustainability Alliance

The Southcoast Health and Sustainability Alliance (SHASA) is an alliance of Eurobodalla community members. Formed in 2014 SHASA's key focus is to highlight and support action to mitigate climate change for our region.
